

This is Phase 1!

THANK YOU FOR YOUR HELP!

First of all, a big thank you to everyone who provided their opinions, suggestions and comments at our open house and via email this past spring. The insights we received from kids, neighbours, parents, teachers and other caregivers have been so helpful in guiding the direction of this project.

MANY THANKS TO

- Families, friends and students of CTK School who graciously donated their time and money to help our fundraisers be successful
- Councilor Brian Mayes and the City of Winnipeg for providing a generous community grant
- Michael Lacroix from Playgrounds-R-Us for providing so much of his time, experience and guidance to us throughout this project.
- The Lennox Club
- The CTK School Board
- The CTK graduating class of 2018
- The CTK Knights of Columbus
- Everyone who attended our open house

 Plan of Phase 1 Improvements

HERE IS WHAT'S HAPPENING

After looking at the feedback we received, we decided that we needed to focus on children's safety, seating and, of course, excitement for Phase 1.

1 - Replace the pea gravel with EWF!

Engineered Wood Fiber (Fibar or EWF) is a "wood chip" type product that is the new standard for playgrounds in Winnipeg.

2 - New Seating!

We are getting 3 new benches and one new picnic table. Many thanks to the 2018 Grade 8 graduating class for donating the funds for the third bench!

3 - New Playground Equipment!

As shown on the plan to the right, we are adding new 2 new pieces of play equipment in the empty area behind the existing play structure and replacing the silver bars with a new net climber.

WHEN WILL BE IT DONE?

The wait is over! Construction will be happening this fall. We are hopeful it can be finished in time for Family Fun Day in September!

Stay tuned for Phase 2!
